

# Set of Templates – Guidelines

LIFE LOOP –Local Ownership of Power

## Project Information

Project Name	LIFE LOOP – Energy Communities – Local Ownership of Power
Grant Agreement	101077085
Project Duration	2022–2025
Project Coordinator	Energy Cities
Working Package	WP5
Deliverable	D5.2 Set of Templates
Responsible Partner	Electra Energy Cooperative

## Purpose

We have gathered the most relevant user-friendly guides, models and templates for those who want to launch their first energy community or improve the governance or activities of a running community. Many tools already exist and need to be made visible to those who can find them useful. Others are still missing and need to be developed to make the development of community energy projects as easy and effective as possible for all stakeholders. This is what we do in LIFE LOOP in general, and in Work Package 5 in particular.

As the need for templates and guidelines is growing through the project's implementation, we will continue to enrich the Set of Templates-Guidelines with more templates, especially focusing on the collaboration of municipalities with energy communities and citizen-led initiatives.

The 1<sup>st</sup> round of the Set of Templates-Guidelines consists of user-friendly guides, models, and templates for the following actions:

1. Analysis of Barriers and Opportunities;
2. Roadmap;
3. Articles of Incorporation-Statute;
4. Collective self-consumption business model;
5. Business Model Canvas;
6. Stakeholder Mapping, and
7. Stakeholder Engagement Plan.

**The Set of Templates is available in four languages (links embedded):**

- [English](#),
- [Greek](#),
- [Croatian](#)
- [Romanian](#).
